New York City Metropolitan Area | (203) 909-1646 | meghana.drlnswamy@gmail.com | linkedin.com/in/meghana-swamy | meghana-l.github.io

## PROFESSIONAL SUMMARY

Recent MS Business Analytics graduate (GPA: 3.84) with hands-on experience building data pipelines, BI dashboards, and AI-powered applications. Skilled in SQL, Python, Power BI, and Tableau. Deployed production ML models and a RAG-based intelligence app end-to-end — from architecture to cloud hosting. Seeking analyst and consultant roles where data drives decisions.

## EDUCATION

### Master of Science in Business Analytics

University of New Haven, West Haven, CT

Aug 2024 – May 2026

GPA: 3.84/4

### Bachelor of Engineering in Information Science

BMS Institute of Technology & Management, Bengaluru, India

Aug 2019 – May 2023

GPA: 3.3/4

## CORE COMPETENCIES

SQL | Python | Power BI | Tableau | ETL Pipelines | Data Modeling | Machine Learning | RAG Pipelines | Business Analysis | Agile | FastAPI | Docker | Data Warehousing | Stakeholder Communication

## TECHNICAL SKILLS

**Tools & Platforms:** Oracle APEX, PowerSchool SIS, SSMS, MS Office, ServiceNow, JIRA, GitHub, SharePoint, n8n, Vercel

**Data & Reporting:** SQL, Python, R, Power BI, Tableau, Advanced Excel, ETL, SSRS, OLAP, Data Warehousing, Data Modeling, AutoML (H2O.ai)

**AI & Development:** FastAPI, REST APIs, RAG Pipelines, LLM Integration, Vector Databases (Pinecone), Docker, Kubernetes, n8n

**Methodologies:** Agile, Scrum, Waterfall, UAT, QA, SDLC

## PROFESSIONAL EXPERIENCE

### Data Administrator Intern

District Arts & Education | New Haven, CT

Jan 2026 – May 2026

- Identified a manual reporting bottleneck and automated it end-to-end using SQL and Oracle APEX, cutting report generation time from 4 hours to under 45 minutes - the first automated reporting system the organization had.
- Designed and built ETL pipelines from scratch to consolidate enrollment, attendance, and grade data from three separate sources into a single Oracle APEX dashboard, eliminating double-entry errors across 500+ student records.
- Built Power BI and Tableau dashboards adopted by program leads for weekly operations reviews, replacing ad-hoc spreadsheet pulls.

### Graduate Teaching Assistant

Dept. of Economics & Business Analytics, University of New Haven | West Haven, CT

Aug 2025 – May 2026

- Sole TA supporting two Business Analytics courses simultaneously; independently designed 12+ lab exercises in R, SQL, and Power BI used by 60+ students per semester.

## PROJECT EXPERIENCE

### ARIA – Autonomous Research & Intelligence Agent

Personal Project

Apr 2026

- Architected and shipped a full-stack AI stock intelligence app solo - RAG pipeline (BM25 + Vector, MMR Reranking), Groq LLaMA 3.3 70B, Pinecone, HuggingFace embeddings, live market APIs, deployed on Vercel and Render.
- Built an automated n8n workflow updating Pinecone vector DB every 6 hours, keeping AI responses grounded in current market data without manual intervention.

### Port Authority of NY & NJ Traffic Analytics & Forecasting

Capstone Project – University of New Haven

Jan 2026 – Apr 2026

- Analyzed 29,000+ daily traffic records across 8 facilities (2015–2025); built 3 predictive models in H2O.ai AutoML + scikit-learn, achieving production-ready accuracy for real-time volume forecasting.
- Deployed models as REST endpoints via FastAPI, Docker, and Kubernetes (Minikube) — the only team to productionize results beyond a notebook.

## LEADERSHIP & ACTIVITIES

**Cross-Disciplinary Case Competition** — 2nd Place Winner — University of New Haven

Oct 2025

**Hack Newhaven 2026 Hackathon** — Best Use of Solana Award — University of New Haven

Mar 2026

## CERTIFICATIONS

**Entry Certificate in Business Analysis (ECBA)** — IIBA

2026

**AI Fluency: Framework & Foundations** — Anthropic Education

Jun 2026

**Claude 101** — Anthropic Education

Jun 2026
